## EXPERIENCE

### Student Assistant Westfälische Wilhelms-Universität Münster (WWU)

since Apr 2021

- Responsible for data management and analysis in various research projects at the department for "Physical Education and Teaching Research" using R, Excel and Google Sheets.
- Descriptive and inferential statistical analysis (R Studio), as well as visualization and reporting (R Markdown and PowerPoint) of observational and experimental data.
- Evaluation of seminars including questionnaire design and validation, survey implementation, data analysis and reporting.
- Statistical and methodological consulting.

### Fitness Coach Topic Fitness & Wellness, Gladbeck

Jun 2016 - Apr 2022

- Helped clients from various backgrounds reach their fitness-, health- and sport-specific goals.
- Helped gain new customers and retain existing ones through strong communication and consultation.

### Sports Science Intern Plymouth Argyle FC Academy

Aug 2019 - Dec 2019

- Heart rate, GPS and wellness monitoring and analysis.
- Communication of findings to coaching staff, performance staff and players.
- Helped optimize training sessions by identifying inefficient time management using GPS and heart rate data and creating a catalog of common drills along with their physical requirements. Resulted in shorter periods of inactivity and more targeted intensity management.
- Led on-field and gym-based team and individual training sessions.

### Rehabilitation Coach Trainingszentrum Lurbiecki, Dorsten

Feb 2017 - Aug 2019

- Helped clients from a mostly clinical and elderly population reach their health and fitness goals.

### Working Musician and Music Teacher Freelance

2006 - 2019

- Played concerts with multiple bands in various music genres.
- Gave individual and group-based drumming and band lessons.

### Call Center Agent Ipsos Amsterdam

Aug 2014 - Jun 2015

- Planned, conducted and documented phone interviews for the purposes of market research for various corporations (e.g. Salomon).
